

Students with diabetes

If a student at AIS-R has been diagnosed with diabetes, the following responsibilities are taken by the school:

1. The school nurse will inform appropriate school personnel.
2. School personnel will be educated by the school nurse about the disease, the signs of hypoglycemia and hyperglycemia and how to act in case of an emergency
3. The student is allowed to eat a snack during school hours at any time, if needed.
4. Parents will be informed about their responsibilities regarding their child.
5. Teachers will report to the school nurse if they have a medical concern regarding the student.
6. Parents will be informed regarding medical concerns by the school nurse/principal.
7. School nurse will develop an IHP (Individual Health care Plan) with student and parent to support student during school hours.

Responsibilities of the student and parents:

1. Parents will inform the school nurse about the condition of the child.
2. Supply needed for treatment, such as insulin, needles etc. will be provided by the parents/student to the school nurse. Supply will be kept in the nurse's office.
3. Extra snacks, provided by the parents, should be kept at school.
4. Student will take responsibilities of eating breakfast at home, and snacks and lunch at school.
5. Student will carry with him/her a snack AT ALL TIMES, in case he/she has a hypoglycemia.
6. Student will check glucose level in nurse's office and dispose materials (strips, lancets) in special container.

I hereby understand the responsibilities as a parent:
